

The **AGRIPAK BACK HOE** attachment is mounted on the MF385/NH640s tractors chassis, a reliable and popular machine with sound hydraulic controls, side shift, comfortable operations and contemporary design.

A Power full tool for to use in Construction, Water Courses, and Drainage usages.

Well suitable for Pakistan and International Markets.

SPECIFICATIONS:

1) Overall Length Transport	
- Side Shift	6200mm (244.0")
- Centre mount	7735mm (304.5")
2) Axle Center to sew center	
- Side Shift	1320mm (52.0")
- Centre mount	1161mm (45.7")
3) Surface Reach	5582mm (219.8")
4) Bucket Rotation	
- Std. Link	194 Degree
- Power Pin	164 Degree
5) Overall Operating Height	5350mm (210.6")
6) Load over not SAE	3624mm (142.7")
7) Loading Reach	1845mm (72.6")
8) Digging Depth 2ft Flat Bottom SAE	4250mm (167.3")
9) Height Over Dipper Transport	3550mm (139.8")
10) Departure Angle	22°
11) Leveling Angle	
- Side Shift	8°
- Centre mount	15°
12) Transport Spread	
- Side Shift	1990mm (78.4")
- Centre mount	2134mm (84.0")
13) Operating Spread	
- Centre mount	3429mm (135.0")
14) Total Side Shift	1410mm (55.5")
15) Side wall clearance	110mm (4.3")
16) Side reach from out side edge of stabilizers side	
- Shift centrally mounted	4817mm (189.7")
- Side Shift fully offset	5522mm (217.4")
- Centre mount	4221mm (166.2")
