

AGRIPAK JIB CRANE provides best means for the transportation of Steel Pipes, Oil Drums, Construction Material, Machinery Parts, Cement and Fertilizer Bags. Because of its angular body it can also be used for the loading and unloading of materials from the Dumpers and Trailers. Because of its high cast tubular steel body, robust construction and three point linkage, it can be operated with any tractor and can be easily operated from the drivers seat and can be detached easily in no time. Height of lift is adjustable.

Jib Crane is capable of lifting a load up to 800 to 1000 Kg depending upon the tractor HP. Stabilizer bar chain (optional) is advised to be used for the transportation over uneven fields.
